SOUTHERN COASTAL HEALTH INSURANCE FUND - 93791981 COVID-19 Weekly Update

Group Number(s): 737420,737421,169660

ual paid claim amounts may vary from this report once claims are finalized. 2 information in this report is intended to pravide weekly insights as a leading i

Data in this report is from March 1, 2020 to current (excluding graphs)

Why use this report...

Stay informed about potential COVID-19 claims activity and volume with insights from the Weekly COVID-19 Update.

In advance of the detailed Monthly Analytic Report, on a weekly basis you will have insight into Coronavirus-related data including:

- Weekly test volume
- Weekly claimants
- Adjudicated claim amounts

In addition, the weekly update provides information on:

- Telemedicine related claims (COVID-19 as well as non-COVID related services)
- Overall medical claim activity

Weekly Updates contain high level information on overall claims and telemedicine claims (both Coronavirus and non-Coronavirus) to provide insight into pattern changes. COVID-19 Monthly Reports more fully explore the types of services and population being impacted during the pandemic. We will continue to refine and expand the data within these views as we monitor changes that may impact the analysis.

Things to consider when reviewing the data...

Reporting is based on the primary diagnosis code on a claim

Standard codes and coding guidance have rapidly evolved. While health care institutions adjust to new codes and coding changes, claims may be

- understated based on:
- Provider variance in understanding billing guidance
- Inability to confirm diagnosis due to testing limitations
- Test results received by provider post-claim submission
 No claim submission (e.g., testing covered by
- 6 Fř
- public health entity or inpatient)
 Claim submission prior to the introduction of COVID-19 specific ICD-10 codes

Claim counts in this report represent the number of claims processed each week. COVID-19 vaccine information

covered under an Aetna medical or Aetna

represents vaccine administration pharmacy benefit.

What codes are used in the weekly update

The following diagnoses and procedures are used to identify likely COVID-19 related claims in this update:

 $\textbf{COVID-19-Specific Diagnosis Codes} \ \text{-} \ \text{Specifically identified by CDC for COVID}$

- U07.1 COVID-19 confirmed cases
- U07.2 Unconfirmed suspected cases (not expected to be billed)
- **J12.82** Pneumonia due to COVID-19 (new 1/1/2021)
- M35.81 Multi-system inflammatory syndrome (new 1/1/2021) M35.89 - Other specified involvement of connective tissue (new 1/1/2021)
- WS5.09 Other specified involvement of connective tissue (new 1/1/2021)

Coronavirus Diagnosis Codes - Providers guided to bill these in initial outbreak: B97.29 - Other coronavirus as the cause of diseased B34.2 - Coronavirus infection. unspecified

Exposure Diagnosis Codes - Pre-existing codes used for COVID-19 screenings and for nonconfirmed/non-presumptive cases. Because these codes may also be used for suspected exposure to other biological agents and viral communicable diseases, some billing may be for non-COVID related scenarios:

- **Z03.818** Suspected exposure to other biological agents ruled out **Z20.822** Suspected exposure COVID-19 (new 1/1/2021)
- **Z20.828** Exposure to other viral communicable diseases
- Screening Encounters -

Z11.52 - Encounter for screening (new 1/1/2021)

Testing Procedure Codes - Codes used to identify COVID-19 and antibody testing: 86328, 86408, 86409, 86413, 87426, 87428, 87635, 87636, 87637, 86769, 87811, C9803, 0202U, 0223U, 0224U, 0225U, 0226U, 0240U, 0241U, U0001, U0002, U0003, U0004, U0005, G2023, G2024

Telemedicine - Metrics include Teladoc as well as community based providers performing approved telemedicine services

Vaccine Administration (Medical) - 0001A, 0002A, 0003A, 0011A, 0012A, 0013A, 0021A, 0022A, 0031A

Vaccine Administration (Pharmacy) - NDC Code of 59267100001, 59267100002, 59267100003, 80777027310, 80777027399, 59676058005, 59676058015

These codes represent our current best efforts to identify likely COVID -19 activity.

SOUTHERN COASTAL HEALTH INSURANCE FUND - 93791981 **COVID-19 Weekly Update**

Data in this report is from March 1, 2020 to current (excluding graphs)

COVID-19 population alerts

Hot Spots In the United States - Map (to the right)

The map shows how the number of new cases have CHANGED in the last two weeks across the U.S. (not plan sponsor-specific). This provides an indication of which direction the level of new cases is trending.

County Alerts (below)

The tables below show the average daily new cases per 100,000 individuals by county over the past 7 days . These rates are reflective of the overall population of the county, not of your specific membership. We are providing this information to inform you where you have membership in counties that are experiencing a high or emerging rate of new cases.

The CDC collects new case counts at the county level. We are using this information to calculate a '7 day average new case count.' This data is then normalized for population size (new cases per 100,000 individuals) to smooth unusual daily highs or lows, often caused by data collection fluctuations.

The county information below is for your top 25 counties (by membership) which have been identified as having either a high (>25) or emerging (10-24) average daily case rate. Note: There could be less than 25 counties in the tables or none at all if the alert criteria is not met in counties where you have membership.

○-25.01% or less ○-25% - -10.01% ○-10% - 0.01% ○0% - 10% ○10.01% - 25% 🔵 25.01% or more 🛛 🔘 No Data

Heat map of recent growth by county: This map shows the percentage change in cases between the last seven days and the previous seven days. Darkers colors indicate an increasing trend while lighter colors indicate a decreasing trend, Last Updated: 10/42021 | Source: CDC

High risk counties (red) had greater than 25 daily new cases per 100,000 people last week Emerging risk counties (orange) had between 10 and 25 daily new cases per 100,000 people last week

High Risk (>=25 new cases ner 100 000 individuals)*

	County	Your	Avg daily new

which may differ from final results. Data in this report is from March 1, 2020 to current (excluding graphs)

Appendix:

Alerts for the top 50 counties with high new cases rates in which you have membership

	County	Your	Avg. daily new	Risk Level
State, County	population	members	cases per 100K	KISK LEVEI
DE, Kent	180,786	1	56.8	High Risk
MD, St. Mary's	113,510	1	54.1	High Risk
DE, New Castle	558,753	19	39.9	High Risk
NJ, Cape May	92,039	847	38.7	High Risk
NJ, Atlantic	263,670	853	34.3	High Risk
NJ, Cumberland	149,527	5,348	34.0	High Risk
FL, St. Johns	264,672	1	33.1	High Risk
NJ, Ocean	607,186	34	32.5	High Risk
NJ, Salem	62,385	674	32.3	High Risk
NJ, Gloucester	291,636	1,162	32.1	High Risk
NJ, Camden	506,471	464	30.2	High Risk
FL, Polk	724,777	2	28.3	High Risk
NY, Livingston	62,914	1	28.2	High Risk
FL, Osceola	375,751	1	25.6	High Risk
NY, Rockland	325,789	1	24.4	Emerging Risk
NJ, Monmouth	618,795	1	23.7	Emerging Risk
NJ, Burlington	445,349	121	23.7	Emerging Risk
PA, Bucks	628,270	4	20.9	Emerging Risk
PA, Delaware	566,747	6	18.9	Emerging Risk
PA, Montgomery	830,915	2	18.2	Emerging Risk
PA, Philadelphia	1,584,064	3	18.1	Emerging Risk
NJ, Morris	491,845	1	15.6	Emerging Risk
NJ, Middlesex	825,062	3	14.5	Emerging Risk
NJ, Mercer	367,430	5	13.8	Emerging Risk
CT, New Haven	854,757	1	12.5	Emerging Risk

County Alerts

This table shows the rate of average daily new cases per 100,000 individuals by county. These rates are reflective of the overall general population of the county, not of your specific membership in that county. We are providing this information to inform you which counties you have membership in that are experiencing a high incidence rate of new cases.

The CDC collects new case counts at the county level. We use this information to calculate a '7 day average new case count.' This data is then normalized for population size (new cases per 100,000 individuals) to smooth unusual daily highs or lows, often caused by data collection fluctuations.

The county information is for your top 50 counties in which you have membership that have the highest average daily new cases over the past seven days. Average daily new cases of 25 per 100k members are denoted as high risk (red) and those with 10-24.9 are denoted as emerging risk (orange).

Note: There may be less than 50 counties or none at all depending upon where you have membership vs .the counties with the highest risk. Counties with less than 20 new cases will not appear in this list.
